

An Unrivalled Spa Experience for Mother's Day

Go beyond the simple esthetic services offered by other spas and clinics and enjoy a truly relaxing spa experience at The Waters - An Urban Spa Retreat.

From the moment you walk in, feel yourself relax and let go of everyday stresses with soothing lighting, caring staff and the utmost in comfort — right down to every last detail.

The Waters experience is all about the details. Prior to treatment with one of The Waters' professional, warm staff, you will slip into a plush robe and enjoy a complimentary footbath.

"You are not going to find this full spa experience anywhere else in Waterloo,"

said owner Carly Kuntz. "We are all about the details that make for an incredible spa experience, from ensuring your privacy and relaxation to offering complimentary aromatherapy and attentive service.

"Let us take you away, if only for a little while."

The Waters specializes in unique treatments inspired by different locations around the world, including its most recent offerings, the Cherry Blossom Festival manicures and pedicures and The Land of the Rising Sun body treatment.

Inspired by a journey to Japan, enjoy a green tea anti-oxidant soak in the spa's giant soaker tub. The soak is infused with oil from the Hiba tree - an ornamental tree found around temples in Japan.

After the soak, there is an apricot, cherry-blossom scrub - reminiscent of springtime festivals. The most unique part of the treatment is the 45-minute bamboo baton massage in which the therapist uses a smooth bamboo baton to gently knead tension out of muscles. Guests even get to take the baton home as a souvenir from their trip to Japan.

The incredible bamboo baton massage is also offered separately.

Other Worldwide Escapes to indulge in include Out of Africa, the Dead Sea Deep Cleanse and Traditions of Thailand, with each treatment including a take-home souvenir of the experience.

"At The Waters, we want you to have the most relaxing, unique spa experience available," Kuntz said.

"We believe in hands-on attentiveness throughout all of our services. In our facials, the therapist doesn't leave the guest alone in a room steaming. We stay with the guest providing additional massage during masking. Our staff pride themselves on nurturing our guests."

Couples can enjoy a relaxing spa date in one of The Waters' couples suites, or women can prepare for that big date with the spa's Date Night Body Beautiful package. Men can enjoy a private pedicure while watching sports in high def in the Club Room.

And with Mother's Day approaching, the greatest news is that a manicure can be enjoyed for as little as \$40, or a massage for as little as \$45. Or Mom can experience a half day of pure pampering for only \$200. There is no need to spend a fortune to enjoy a true spa experience or give that gift to a loved one.

Gift cards can be purchased at the spa or online. The Spa Shop also displays other unique gift items perfect for her. Whether you need some time for yourself, time with a loved one, or special gift, stop by The Waters for nurturing you won't find anywhere else.

The Waters is open 7 days a week in Uptown Waterloo. www.TheWatersSpa.com. 519-888-7727
